IIA India Bangalore Chapter Tech Conference Redefining trust through Technology

The Tech conference of the IIA India Bangalore Chapter promises to be an eye opener on what today's technology has to offer and redefines the approach in the evolving world of internal audit. In a dynamic world of technology, the event embraces the need to be aware, adapt and unfurl technology across business processes and the auditing world while being cognizant of the threats around us.

Distinguished dignitaries, revered leaders, Tech enthusiasts and acclaimed speakers will converge at this milestone event, illuminating the path ahead for adoption of technology across spectrums.

The conference unfurls a tapestry of thought-provoking topics, igniting conversations that delve into the heart of today's business and audit landscape.

1. **Open Network for digital commerce** – Explore the significant role that ONDC is playing in Digitisation for India and commerce at population scale.
2. **The ever-evolving world of AI** - A deep dive into the transformative influence of AI leveraging advanced algorithms and vast data to automate tasks, enhance decision making and drive innovation across industries.
3. **Cloud computing Security** – Unravel how large organisations protect cloud environments, data, applications against new age sophisticated attacks.
4. **Cyber Forensics** - A riveting exploration into the complex dilemmas faced by organisations on cyber crimes and how they go about unearthing these using powerful tools and Techniques.
5. **Insight mining** - Unlock how organisations analyze diverse datasets to extract meaningful patterns, uncover hidden opportunities and enhance their strategic initiatives.

Be a part of the digital revolution. Dive into innovation and connect with visionaries. Join us to unlock the future of technology and the evolving world of audit – your next bid idea awaits!
